Subject: Recommendation

Visiontech,

I'd like to thank you for the professional home inspection that I received for my condo. Jack Sullivan was thorough, knowledgeable, and very patient answering my questions both at the time of the inspection as well as with followup questions. In fact I have already recommended that others use your services as well.

Also Elizabeth who handles the administrative matters is very pleasant and helpful. Plus she responds quickly which is important considering that many of the steps in a home purchase are time sensitive.

Thank you again and I look forward to doing business with you in the future.

- Brian Evans Baltimore, MD
