**Subject: Thanks for great work on the home inspection**

Jack, it was a pleasure working with you again recently on our home inspection. As with the initial inspection, your work was exacting and precise. You caught things that my wife and I would never even think to look for in the house. Buying a new home can be a traumatic experience and knowing that you were the one to sign off on the quality of the home and work with us on identifying outstanding issues made the whole process much less stressful for Kacy and I. We have already recommended you to several friends and would not hesitate to do so again in the future as your work is outstanding. Take care and hope that you have a Happy Holiday season!
